

Greetings.

Our names are Nicole and Garrett. Thank you for taking the time to find out a little about our family. When we were first dating we dreamed about the family we hoped to have and it has turned out to be far better than we could have imagined. However, our hearts and our family still have room to grow.

We have been married for eleven years and have three beautiful children. Grady is seven, Cadyn is five and Emmalyn is four. Our boys were brought to us through adoption and our daughter is biological.

Nicole is a stay at home mom and Garrett is a Fire Captain. Our lives center on our love for each other and the love we have for our sweet children.

We live in a moderately sized town in a new home. Our town is big enough to have everything you need but small enough to feel unique. We are a 30 minute drive to the beach and we love to spend time outdoors. We enjoy camping, beach days and taking family vacations. Some of our favorite places to visit are Disneyland, the zoo, national parks, the snow, professional sporting events, fairs and any new adventure we can find. This past summer we went on a road trip for three weeks across the United States.

Nicole's dream in life, ever since she was a young girl, was to be a mother. From the moment our first son was born her dreams came true. She feels fortunate that she is able to be a stay at home mom. Prior to having children Nicole was a third grade teacher in Southern California. She received a degree in teaching from a private university in Los Angeles. She enjoys

photography and doing fun activities with our children.

Garrett has worked as a Firefighter for the last 15 years. In the fire department he has been assigned to fire engines, ladder trucks, rescue boats and helicopters. The great thing about his job is that he is home 4 days a week and able to spend lots of time being Daddy. Garrett earned a Bachelor's Degree from a private university in Southern California. One of his greatest joys is volunteering at our children's school.

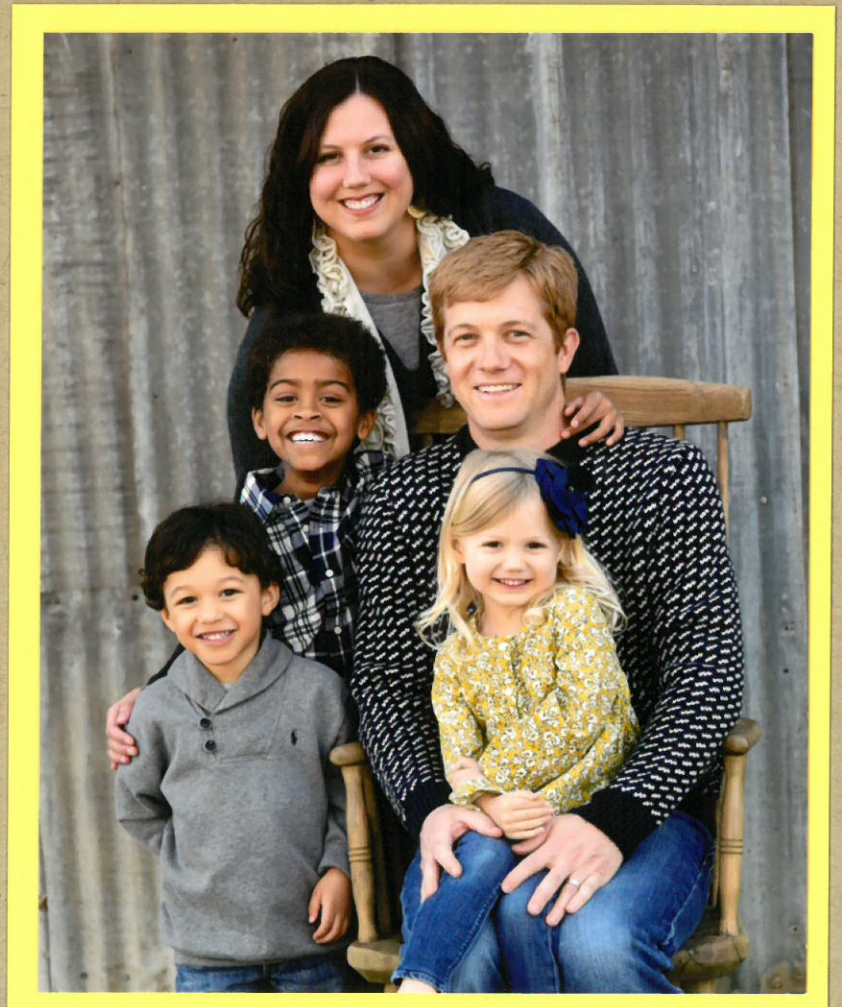

Our three happy little kids love going to school, reading books, playing sports and riding bikes. Grady and Cadyn attend a private school and

eventually all the children will attend the same school.

It was difficult for us to write about the amount of love in our family. Hopefully through some of the attached pictures you will be able to see the joy in our children and the love we have for one another. Thank you for taking the time to read about us and we hope to hear from you soon.

Garrett and Nicole

Fun Times!
